

SECTION-2 - (CSS assignments) Steps to follow:

1. Create a new branch 'css-assignments'.
2. Switch to 'css-assignments' branch.
3. Copy all CSS assignments inside 'Assignments' folder.
4. Commit CSS assignments into 'css-assignments' branch.

A screenshot of a Windows terminal window titled "MINGW64:/c/Users/pranj/Assignments". The terminal shows a series of Git commands being executed in a directory named ~/Assignments. The user is currently on the master branch. The commands performed are: creating a new branch named 'css-assignments', listing the branches to confirm its creation, checking out the 'css-assignments' branch, adding a new file 'new.txt', adding another file 'info.html', and committing these changes with the message 'changing in css-assignments branch'. The terminal output shows the successful execution of these commands, ending with the message 'nothing to commit, working tree clean'.

```
pranj@pranj MINGW64 ~/Assignments (master)
$ git branch css-assignments

pranj@pranj MINGW64 ~/Assignments (master)
$ git branch
css-assignments
* master

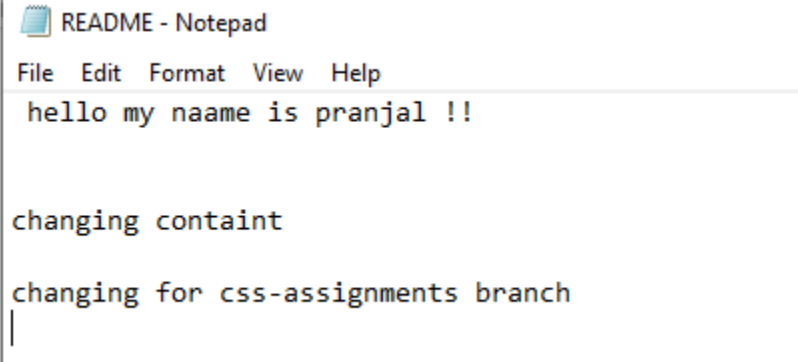

pranj@pranj MINGW64 ~/Assignments (master)
$ git checkout css-assignments
Switched to branch 'css-assignments'

pranj@pranj MINGW64 ~/Assignments (css-assignments)
$ git add new.txt

pranj@pranj MINGW64 ~/Assignments (css-assignments)
$ git add info.html

pranj@pranj MINGW64 ~/Assignments (css-assignments)
$ git commit -m 'changing in css-assignments branch'
On branch css-assignments
nothing to commit, working tree clean
```

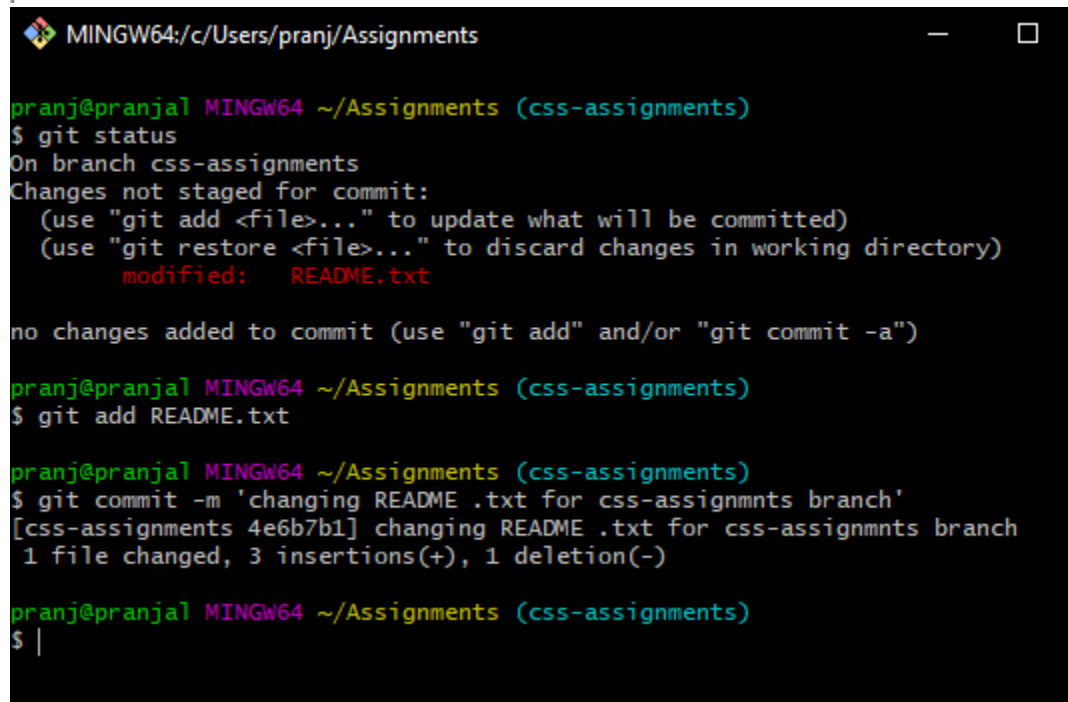

5. Make minor changes into README.txt file on line 1 belonging to 'css-assignments' branch.
6. Commit those changed files.

```
README - Notepad
File Edit Format View Help
hello my naame is pranjali !!

changing containt

changing for css-assignments branch
|
```

```
MINGW64:/c/Users/pranji/Assignments

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ git status
On branch css-assignments
Changes not staged for commit:
  (use "git add <file>..." to update what will be committed)
  (use "git restore <file>..." to discard changes in working directory)
        modified:   README.txt

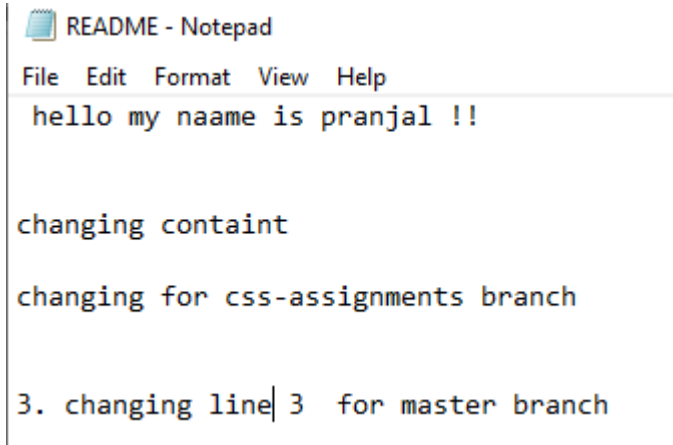

no changes added to commit (use "git add" and/or "git commit -a")

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ git add README.txt

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ git commit -m 'changing README .txt for css-assignmnts branch'
[css-assignments 4e6b7b1] changing README .txt for css-assignmnts branch
1 file changed, 3 insertions(+), 1 deletion(-)

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ |
```

7. Switch to master branch.
8. Make minor changes into README.txt file on line 3 & commit those changes into master.

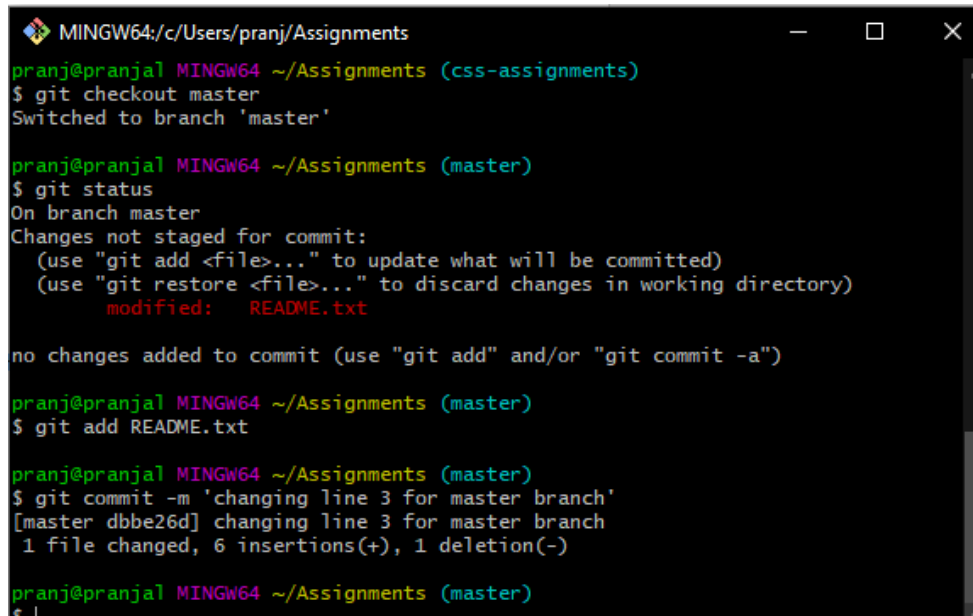

```
README - Notepad
File Edit Format View Help
hello my naame is pranjai !!

changing containt

changing for css-assignments branch

3. changing line 3 for master branch
```

```
MINGW64:/c/Users/pranj/Assignments
pranj@pranjai MINGW64 ~/Assignments (css-assignments)
$ git checkout master
Switched to branch 'master'

pranj@pranjai MINGW64 ~/Assignments (master)
$ git status
On branch master
Changes not staged for commit:
  (use "git add <file>..." to update what will be committed)
  (use "git restore <file>..." to discard changes in working directory)
        modified:   README.txt

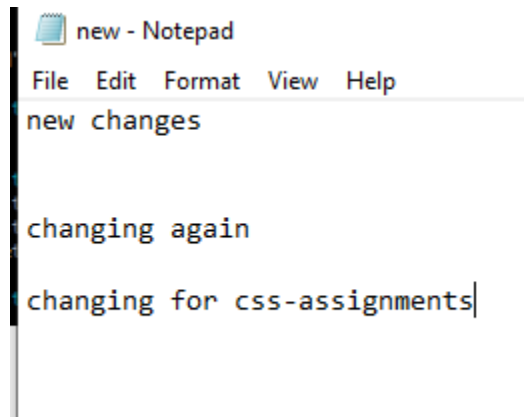

no changes added to commit (use "git add" and/or "git commit -a")

pranj@pranjai MINGW64 ~/Assignments (master)
$ git add README.txt

pranj@pranjai MINGW64 ~/Assignments (master)
$ git commit -m 'changing line 3 for master branch'
[master dbbe26d] changing line 3 for master branch
1 file changed, 6 insertions(+), 1 deletion(-)

pranj@pranjai MINGW64 ~/Assignments (master)
$
```

9. Again switch to 'css-assignments' branch.
10. Make minor changes into few files belonging to 'css-assignments' branch.
11. Commit those changes.

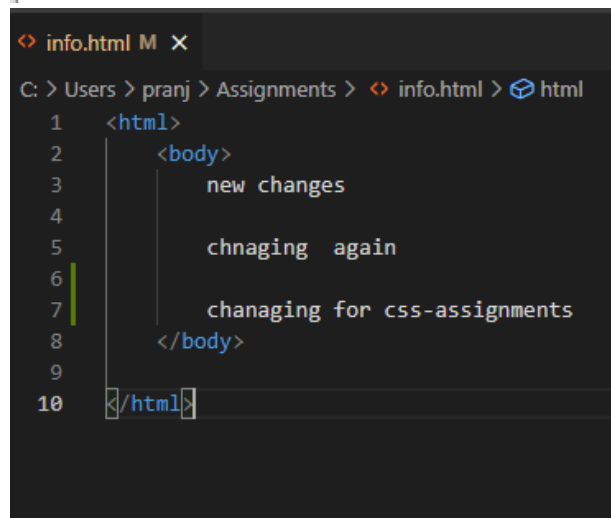

A Notepad window titled 'new - Notepad' with a menu bar (File, Edit, Format, View, Help). The text content is as follows:

```
new changes

changing again

changing for css-assignments|
```

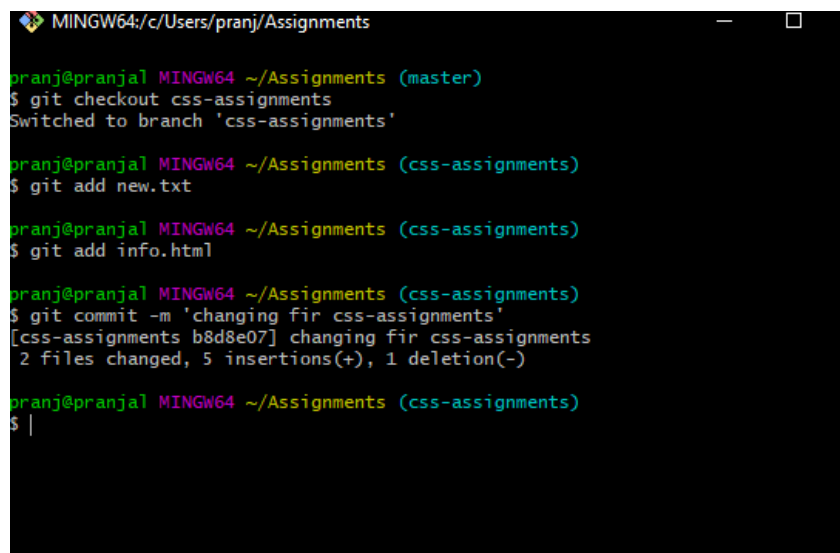

A VS Code editor window titled 'info.html M' showing the following HTML code:

```
<?xml version="1.0" encoding="UTF-8" ?>
<html>
  <body>
    new changes

    chnaging again

    chanaging for css-assignments
  </body>
</html>
```

A terminal window titled 'MINGW64/c/Users/pranj/Assignments' showing the following commands and output:

```
pranj@pranjal MINGW64 ~/Assignments (master)
$ git checkout css-assignments
Switched to branch 'css-assignments'

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ git add new.txt

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ git add info.html

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ git commit -m 'changing fir css-assignments'
[css-assignments b8d8e07] changing fir css-assignments
2 files changed, 5 insertions(+), 1 deletion(-)

pranj@pranjal MINGW64 ~/Assignments (css-assignments)
$ |
```

12. Switch to master.
13. Merge 'css-assignments' branch into master. Confirm all css assignments are shown in master.
14. Finally delete the 'css-assignments' branch.

```
pranj@pranjal MINGW64 ~/Assignments (master|MERGING)
$ git checkout master
error: you need to resolve your current index first
README.txt: needs merge

pranj@pranjal MINGW64 ~/Assignments (master|MERGING)
$ git add .

pranj@pranjal MINGW64 ~/Assignments (master|MERGING)
$ git comiit -m 'conflict resolve '
git: 'comiit' is not a git command. See 'git --help'.

The most similar command is
    commit

pranj@pranjal MINGW64 ~/Assignments (master|MERGING)
$ git commit -m 'conflict resolve '
[master 8b04bf8] conflict resolve

pranj@pranjal MINGW64 ~/Assignments (master)
$ git merge css-assignments
Already up to date.

pranj@pranjal MINGW64 ~/Assignments (master)
$ git branch -d css-assignments
Deleted branch css-assignments (was b8d8e07).

pranj@pranjal MINGW64 ~/Assignments (master)
$
```
